

TK C150-5

CARRIER

The TK C150-5 tracked carrier is a TeknoGRC-designed machine, custom-built for a major client.

Extremely compact in size, the machine is designed to transport precast tunnel segments inside tunnels featuring smooth concrete flooring.

The TK C150-5 carrier moves on rubber tracks and is operated via a joystick control.

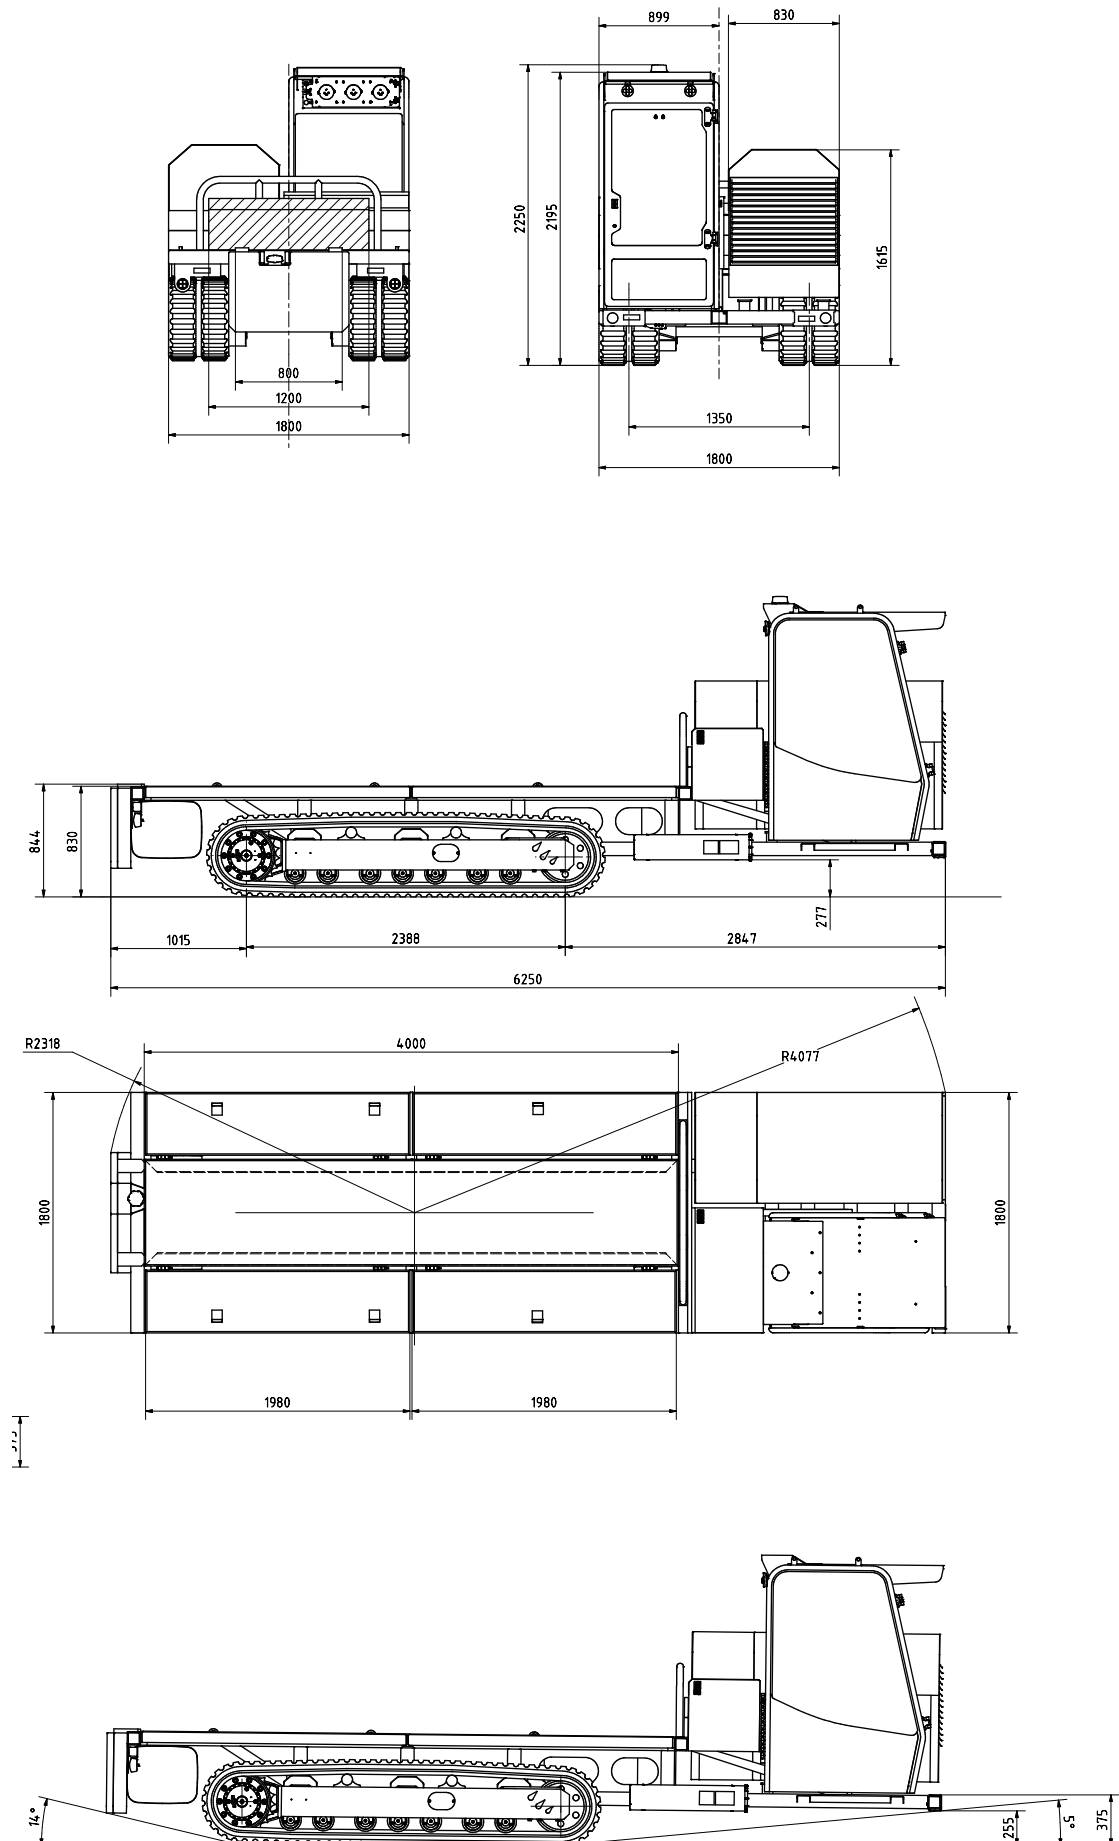

The electronic control unit and in-cab display continuously monitor the carrier's operating conditions.

The operator's cab, certified to FOPS standards, is equipped with a seat and a pressurized HVAC air-conditioning system.

The 180° rotating seat allows the operator to maintain a driving position aligned with the machine's direction of travel, while six LED lights and a rear-view camera enable precise manoeuvring in confined spaces and low-visibility conditions.

DIMENSIONS	Overall length	6250	mm
	Overall width	1800	mm
	Overall height	2250	mm
	Loading platform	4000x1800	mm
	Loading platform height	830	mm
FEATURES	Minimum/maximum steering radius	2318/4077	mm
	Maximum speed at full load	7	km/h
	Maximum gradeability – unloaded/fully loaded	25%	
	Machine operating weight	6650	kg
	Power supply voltage	24	V
TRACKED UNDERCARRIAGE	Track wheelbase	2388	mm
	Minimum ground clearance	201,50	mm
	Total weight	2470	kg
ENGINE	Engine displacement	4,5	dm ³
	Rated power	149	kW
	Maximum torque	780	Nm
	Engine cycle	Diesel	
	Fuel type	Gas oil	
CAPACITY	Load capacity	5000	kg
	Maximum fuel tank capacity	160	l
	Maximum oil tank capacity	200	l

All data, technical characteristics and information reported in this document are for informational purposes and are subject to change without any prior notice requirement. All specifications described do not constitute a guarantee since the performance of the machine varies depending on use.

Machine illustrations may contain optional and additional equipment. The dimensional data refers to average reference measurements indicated for informational purposes only.

The commissioning of the machine and its correct use require compliance with the use and maintenance manual. The weights of hooks, blocks and all lifting accessories are part of the load and must be deducted from the loads indicated.

Please contact TeknoGRC for more information regarding optional and additional equipment.
